

The Nigerian Society of Engineers

QUALITY POLICY

The Nigerian Society of Engineers (NSE) is committed to providing high-quality, value-driven services that enhance professional standards, promote competence development, and uphold ethical engineering practice across all levels of membership.

We strive to:

- i) continuously advance the engineering profession through structured capacity-building programmes, knowledge exchange, and innovation-driven initiatives;
- ii) foster strategic collaboration with government, industry, academia, and society to influence policy, drive national development, and promote public trust in the engineering profession;
- iii) meet all applicable statutory, regulatory, and stakeholder requirements, including the evolving professional needs and expectations of our members;
- iv) ensure continual improvement of our quality management system through data-driven decision-making, effective leadership, and inclusive member engagement.

This policy provides the foundation for our quality objectives and reflects our unwavering dedication to operational excellence, professional relevance, and national development.
