House Road, Central Business Area, Abuja, Nigeria.

4.0 SUBMISSION OF MANUSCRIPTS

Word and PDF copy can be submitted at any time by sending it to nse-ttjournal@nse.org.ng and ogbosoedith@gmail.com. Hard copies of manuscripts will not be accepted.

5.0 ACCEPTANCE AND/REJECTION

The corresponding author will be notified of acceptance/rejection of paper. PDF copy of the proof of the paper will be sent to the corresponding author for proofreading of the editorial and formatting. All corrections should be returned at one time only by e-mail within one week, otherwise the paper publication will be delayed. Average time between submission and publication is 12 weeks.

6.0 REFERENCES

References should be cited by using the surname of the author and year of publication. Note that, references should be listed alphabetically. In the references listed below: A is for journal articles; B for books; C for conference proceedings; while D is for articles obtained from on-line sources.

- A. Sideridou, I.D., Vouvoudi, E.C Fourth and Bourdouni, K.A. (2012). Study of Physicochemical Properties of Two Current Commercial Dental Self-Curing Resin Composites. Journal of Institute of Polymer Engineers, 26(2): 367-374.
- B. Neville, A.M. (1970). Properties of Thried Concrete, Pitman, Paperback, London.
- C. Iken, G.B. and Abdullahi, L.M. (2015). Performance of Polymeric Materials. International Conference on Journal impact, Abuja Nigeria, October 4-7, 20-24

Signed

Engr. Joshua Egube, FNSE
Executive Secretary

1.0 PAPER TEXT

Technical papers should not exceed 2500 words or approximately 10 typewritten pages in single spacing on A4 size paper. Only documents prepared in English Language using MS Word on a 12-point font-face of Times New Roman will be considered. The articles should have only one column per page. Each article should have an approximate title of less than 20 words and should have an abstract of not more than 200 words. The article should be logically divided into numbered sections and subsections. Equations should be written using MS Word equation editor and numbered consecutively using Arabic numerals in parenthesis in the right-hand margin. Paper size is A4 Margins with left margin 2cm, right margin 2cm, top margin 2cm, bottom margin 2cm. All units shall be in SI-units.

1.1 FIGURES

All line diagrams must be computer processed in black and white using the appropriate software and must be embedded in the paper. Diagrams and photographs should be as small as possible preferable with a minimum width not less than 8cm but not larger than 16cm. All line diagrams and photographs shall be numbered consecutively and referred to as Figures. Each should have appropriate numbers

and précised captions. In situations where multiple curves exist per graph, each curve should be uniquely distinguished with markers or different line style. Please be sure that the quality of all diagrams is high resolution.

1.2 TABLE

ables should be used when data is reported and must be referred to in the text. For example, Table 1, Mechanical Properties of Composites. Table title should be above the able and when it is obtained outside the esearch being reported, the source of the table must be stated below the table. Authors MUST AVOID presenting tables and graphs for the same data, only one should be used.

able 1: Mechanical Properties of Composites

Compositions	Tensile Strength N/m ²	Elongation	Hardness N/mm ²
System A	00.00	00.00	00.00
System B	00.00	00.00	00.00

1.3 EQUATIONS

Mathematical equations shall be constructed within the MS-Word document, using the Microsoft Equation Editor included with the MS-Office Suite. All equations should be numbered serially.

1.4 Affiliation Address

Name of Institution, email address and telephone number should be provided with the author(s) name.

1.5 Keywords:

Keywords should not be more than six words

2.0 COPYRIGHT

With the submission of a manuscript, the corresponding author confirms that the manuscript is not under consideration by another journal. With the acceptance of a manuscript, the journal reserves the exclusive right of publication and dissemination of the information contained in the article. The veracity of the paper and all the claims therein is solely the opinion of the authors not the journals.

3.0 PAPER REVIEW

One author must be designated as corresponding author with whom the editor communicates the development of the papers as it moves through the NSE-TT peer review system. NSE-TT uses a double-blind review system in which the author and reviewer do not know each other. This ensures objective reviewing of articles for qualitative publications. Review takes approximately 2 (Two) weeks from the date of receipt of paper.
